
Roadmap on new EU urban mobility framework published

2021/04/28 07:27 στην κατηγορία INTERNATIONAL

The European Commission is working on a new EU urban mobility framework to support Member States, regions and cities as they develop safe, accessible, inclusive, smart, resilient and zero-emission urban mobility.

All need to contribute to the EU climate and transport policy objectives and targets, as set out in the [European Green Deal](#) and in the [Sustainable and Smart Mobility Strategy](#).

Actions will include strengthening the role of urban nodes on the Trans-European Transport (TEN-T) Network as enablers of sustainable, efficient and multi-modal transport.

The [Roadmap](#) is open for comments until 25 May 2021 (midnight Brussels time).
